Annual Financial Statements for the year ended 31 March 2023

# **Directors' Responsibilities and Approval**

The directors are required by the Companies Act of South Africa, to maintain adequate accounting records and are responsible for the content and integrity of the annual financial statements and related financial information included in this report. It is their responsibility to ensure that the annual financial statements fairly present the state of affairs of the company as at the end of the financial year and the results of its operations and cash flows for the period then ended, in conformity with the International Financial Reporting Standard for Small and Medium-sized Entities (IFRS for SME's). The external auditor is engaged to express an independent opinion on the annual financial statements.

The annual financial statements are prepared in accordance with the International Financial Reporting Standard for Small and Medium-sized Entities (IFRS for SME's) and are based upon appropriate accounting policies consistently applied and supported by reasonable and prudent judgments and estimates.

The directors acknowledge that they are ultimately responsible for the system of internal financial control established by the company and place considerable importance on maintaining a strong control environment. To enable the directors to meet these responsibilities, the board sets standards for internal control aimed at reducing the risk of error or loss in a cost-effective manner. The standards include the proper delegation of responsibilities within a clearly defined framework, effective accounting procedures and adequate segregation of duties to ensure an acceptable level of risk. These controls are monitored throughout the company and all employees are required to maintain the highest ethical standards in ensuring the company's business is conducted in a manner that in all reasonable circumstances is above reproach. The focus of risk management in the company is on identifying, assessing, managing and monitoring all known forms of risk across the company. While operating risk cannot be fully eliminated, the company endeavours to minimise it by ensuring that appropriate infrastructure, controls, systems and ethical behaviour are applied and managed within predetermined procedures and constraints.

The directors are of the opinion, based on the information and explanations given by management, that the system of internal control provides reasonable assurance that the financial records may be relied on for the preparation of the annual financial statements. However, any system of internal financial control can provide only reasonable, and not absolute, assurance against material misstatement or loss.

The directors of the company are responsible for establishing and controlling the process for electronically distributing annual reports and other financial information to shareholders and to the Companies and Intellectual Property Commission.

The directors have reviewed the company's cash flow forecast for the year to 31 March 2024 and, in the light of this review and the current financial position, they are satisfied that the company has or has access to adequate resources to continue in operational existence for the foreseeable future.

The external auditors are responsible for independently auditing and reporting on the company's annual financial statements. The annual financial statements have been examined by the company's external auditors and their report is presented on pages 6 - 8.

The external auditors were given unrestricted access to all financial records and related data, including minutes of all meetings of the shareholders and the board of directors. The directors believe that all representations made to the independent auditors during their audit are valid and appropriate.

The annual financial statements and the supporting schedules set out on pages 4 to 5 and 9 to 34, which have been prepared on the going concern basis, were approved by the board on 29/09/2023 and were signed on its behalf by:

Director

Annual Financial Statements for the year ended 31 March 2023

# **Directors' Report**

The directors have pleasure in submitting their report on the annual financial statements of BT Communications Services South Africa Proprietary Limited for the year ended 31 March 2023.

#### 1. Incorporation

The company was incorporated on 06 March 2008 and obtained its certificate to commence business on the same day.

#### 2. Nature of business

The company is engaged in the provision of support services for multi-national ICT outsourcing contracts, the provision of local data and voice outsourcing solutions, global frame and MPLS services. The company operates principally in South Africa.

There have been no material changes to the nature of the company's business from the prior year.

#### 3. Review of financial results and activities

The annual financial statements have been prepared in accordance with International Financial Reporting Standard for Small and Medium-sized Entities (IFRS for SME's) and the requirements of the Companies Act of South Africa. The accounting policies have been applied consistently compared to the prior year.

Full details of the financial position, results of operations and cash flows of the company are set out in these annual financial statements and do not in our opinion require any further comment.

Registered office and business address BT Building North Office Park

54 Maxwell Drive Woodmead

Postal address Private Bag X203

Bryanston 2021

## 4. Share capital

There have been no changes to the authorised or issued share capital during the year under review.

## 5. Dividends

The board has resolved not to declare a dividend for the financial year ended 31 March 2023. (2022: No dividends were declared or paid to the shareholders). Unpaid dividends at year-end amounted to R 4,384,448 (2022: R 4,384,448). Refer to notes 11 and 22 for more information.

## 6. Share incentive scheme

Refer to note 13 of the annual financial statements for details of the company's share incentive scheme.

## 7. Secretary

The company had no secretary during the year.

# 8. Holding company

The company's holding company is BT Limited which holds 70% (2022 : 70%) of the company's equity. BT Limited is incorporated in the United Kingdom.

# 9. Ultimate holding company

The company's ultimate holding company is BT Group plc which is incorporated in the United Kingdom.

Annual Financial Statements for the year ended 31 March 2023

# **Directors' Report**

## 10. Directors

The directors in office at the date of this report are as follows:

#### Directors

Khalid Abdulla Presantha Naidoo Brian Keith Thomas Chantelle AH Sing (Alternate director for Khalid Abdulla). Resigned on 06/08/2019. This resignation is in the process of being lodged with CIPC. Eyad Yassin Shihabi Valentine Colleta Dzvova Bertrandt Delport

Resigned on 06/08/2019. This resignation is in the process of being lodged with CIPC.

## 11. Directors' interests in contracts

During the financial year, no contracts were entered into which directors or officers of the company had an interest and which significantly affected the business of the company.

## 12. Events after the reporting period

Apart from the matter referred to in note 16 of the Directors' report, the directors are not aware of any material event which occurred after the reporting date and up to the date of this report.

## 13. Going concern

The directors believe that the company has adequate financial resources to continue in operation for the foreseeable future and accordingly the annual financial statements have been prepared on a going concern basis. The directors have satisfied themselves that the company is in a sound financial position and that it has access to sufficient borrowing facilities to meet its foreseeable cash requirements. The directors are not aware of any new material changes that may adversely impact the company. The directors are also not aware of any material non-compliance with statutory or regulatory requirements or of any pending changes to legislation which may affect the company.

## 14. Auditor

PricewaterhouseCoopers Inc. continued in office as auditor for the company for 2023 in terms of the Companies Act of South Africa.

# 15. Public Officer

The public officer of the company is Mohamed Shaik.

Address BT Building North Office Park

54 Maxwell Drive Woodmead 2191

# 16. Arbitration in process

BT Limited exercised its option to purchase the 30% shares held by Kilomix Investments (Pty) Ltd in BT Communications Services South Africa (Pty) Ltd and made an offer with an effective date of 1 June 2021. Kilomix Investments (Pty) Ltd disputes BT Limited's right to have exercised the option. The dispute is currently being resolved by way of arbitration.

Legal Director - AMEA

# Independent auditor's report

To the Shareholders of BT Communications Services South Africa Proprietary Limited

# Our opinion

In our opinion, the financial statements present fairly, in all material respects, the financial position of BT Communications Services South Africa Proprietary Limited (the Company) as at 31 March 2023, and its financial performance and cash flows for the year then ended in accordance with the International Financial Reporting Standard for Small and Medium-sized Entities and the requirements of the Companies Act of South Africa.

## What we have audited

BT Communications Services South Africa Proprietary Limited 's financial statements set out on pages 9 to 34 comprise:

- the statement of financial position as at 31 March 2023;
- the statement of comprehensive income for the year then ended;
- the statement of changes in equity for the year then ended;
- the statement of cash flows for the year then ended; and
- the notes to the financial statements, which include a summary of significant accounting policies.

# Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the *Auditor's responsibilities for the audit of the financial statements* section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

# Independence

We are independent of the Company in accordance with the Independent Regulatory Board for Auditors' *Code of Professional Conduct for Registered Auditors* (IRBA Code) and other independence requirements applicable to performing audits of financial statements in South Africa. We have fulfilled our other ethical responsibilities in accordance with the IRBA Code and in accordance with other ethical requirements applicable to performing audits in South Africa. The IRBA Code is consistent with the corresponding sections of the International Ethics Standards Board for Accountants' *International Code of Ethics for Professional Accountants (including International Independence Standards*).

## Other information

The directors are responsible for the other information. The other information comprises the information included in the document titled "BT Communications Services South Africa Proprietary Limited Annual Financial Statements for the year ended 31 March 2023", which includes the

PricewaterhouseCoopers Inc., 4 Lisbon Lane, Waterfall City, Jukskei View, 2090 Private Bag X36, Sunninghill, 2157, South Africa T: +27 (0) 11 797 4000, F: +27 (0) 11 209 5800, www.pwc.co.za

Directors' Report as required by the Companies Act of South Africa. The other information does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express an audit opinion or any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

# Responsibilities of the directors for the financial statements

The directors are responsible for the preparation and fair presentation of the financial statements in accordance with the International Financial Reporting Standard for Small and Medium-sized Entities and the requirements of the Companies Act of South Africa, and for such internal control as the directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Company or to cease operations, or have no realistic alternative but to do so.

# Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether
  due to fraud or error, design and perform audit procedures responsive to those risks, and
  obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The
  risk of not detecting a material misstatement resulting from fraud is higher than for one
  resulting from error, as fraud may involve collusion, forgery, intentional omissions,
  misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit
  procedures that are appropriate in the circumstances, but not for the purpose of expressing
  an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists

related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

Evaluate the overall presentation, structure and content of the financial statements, including
the disclosures, and whether the financial statements represent the underlying transactions
and events in a manner that achieves fair presentation.

We communicate with the directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

(Registration number: 2008/006072/07) Annual Financial Statements for the year ended 31 March 2023

# **Accounting Policies**

## 1. Presentation of annual financial statements

The annual financial statements have been prepared in accordance and in compliance with the International Financial Reporting Standard for Small and Medium-sized Entities (IFRS for SME's), and the Companies Act of South Africa. The annual financial statements have been prepared on the historical cost basis, except for exclusions as detailed in further accounting policies and incorporate the principal accounting policies set out below. The annual financial statements are presented in South African Rands.

These accounting policies are consistent with the previous financial period.

## 1.1 Significant judgments and sources of estimation uncertainty

In preparing the annual financial statements, management is required to make judgements, estimations and assumptions that effect the amounts represented in the annual financial statements and related disclosures. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results in the future could differ from these estimates which may be material to the annual financial statements.

# Critical judgments in applying accounting policies

Management did not make critical judgments in the application of accounting policies, apart from those involving estimations, which would significantly affect the annual financial statements.

#### Key sources of estimation uncertainty

The following are the key assumptions concerning the future, and key sources of estimation uncertainty at the end of the reporting period, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

#### Financial assets measured at cost and amortised cost

The company assesses its financial assets measured at cost and amortised cost for impairment at each reporting date. In determining whether an impairment loss should be recorded in the statement of comprehensive income, the company makes judgments as to whether there is observable data indicating a measurable decrease in the estimated future cash flows from a financial asset

### Intangible assets

Intangible assets are amortised over the useful life of each asset and are reviewed at each annual reporting period for impairment based on capacity usage of the assets. Management has exercised judgment in estimating the useful lives and residual values of intangible assets.

## **Options** granted

Management used the Monte Carlo model to determine the value of the options at issue date. Additional details regarding the estimates are included in the note 13 - Share based payments.

## Property, plant and equipment

The residual value, depreciation method and useful life of each asset are reviewed at each annual reporting period. Management has exercised judgment in estimating the useful lives and residual values of assets.

## Taxation

Judgment is required in determining the provision for income taxes due to the complexity of legislation. There are many transactions and calculations for which the ultimate tax determination is uncertain during the ordinary course of business. The company recognises liabilities for anticipated tax audit issues based on estimates of whether additional taxes will be due. Where the final tax outcome of these matters are different from the amounts that were initially recorded, such differences will impact the income tax and deferred tax provisions in the period in which such determination is made.

ВТ

Legal Director - AMEA

m ×lı

(Registration number: 2008/006072/07)

Annual Financial Statements for the year ended 31 March 2023

# **Accounting Policies**

## 1.1 Significant judgments and sources of estimation uncertainty (continued)

The company recognises the net future tax benefit related to deferred income tax assets to the extent that it is probable that the deductible temporary differences will reverse in the foreseeable future. Assessing the recoverability of deferred income tax assets requires the company to make significant estimates related to expectations of future taxable income. Estimates of future taxable income are based on forecast cash flows from operations and the application of existing tax laws in each jurisdiction. To the extent that future cash flows and taxable income differ significantly from estimates, the ability of the company to realise the net deferred tax assets recorded at the end of the reporting period could be impacted.

#### Long-term customer contracts

Long term customer contracts can extend over a number of years. During the contractual period recognition of costs and profits may be impacted by estimates of the ultimate profitability of each contract. If, at any time, these estimates indicate that any contract will be unprofitable the entire estimated loss of the contract is recognised immediately as an expense.

The company performs ongoing profitability reviews of its contracts in order to determine whether the latest estimates are appropriate.

Key factors reviewed include:

- Transaction volumes or other inputs affecting future revenues which may vary depending on customer requirements
  plans and market position and other factors such as general economic conditions;
- The company's ability to achieve key contract milestones connected with the transition, development transformation and deployment phases for customer contracts;
- The status of commercial relations with customers and the implication for future revenue and cost projections; and
- The company's estimates of future staff and third party costs and the degree to which cost savings and efficiencies
  are deliverable.

#### 1.2 Property, plant and equipment

Property, plant and equipment are tangible items that are held for use in the production or supply of goods or services, for rental to others or for administrative purposes; and are expected to be used during more than one period.

Property, plant and equipment is carried at cost less accumulated depreciation and accumulated impairment losses.

Cost includes all costs incurred to bring the asset to the location and condition necessary for it to be capable of operating in the manner intended by management.

Cost include costs incurred initially to acquire or construct an item of property, plant and equipment and costs incurred subsequently to add to, replace part of, or service it. If a replacement cost is recognised in the carrying amount of an item of property, plant and equipment, the carrying amount of the replaced part is derecognised. All other repairs and maintenance are charged to profit and loss during the period in which they were incurred.

Depreciation is provided using the straight-line method to write down the cost, less estimated residual value over the useful life of the property, plant and equipment as follows:

Item	Average useful life
Leasehold property	3 - 7 years
Furniture and fixtures	10 years
Computer equipment	3 - 5 years
Network and telecommunications equipment	3 - 7 years

The residual value, depreciation method and useful life of each asset are reviewed at each annual reporting period and are adjusted prospectively, if appropriate, if there are indicators present that there has been a significant change from the previous estimate. Management has exercised its judgment in estimating the useful lives and residual values of assets.

Each part of an item of property, plant and equipment with a cost that is significant in relation to the total cost of the item and have significantly different patterns of consumption of economical benefits is depreciated separately over its useful life from when the asset is ready for use.

(Registration number: 2008/006072/07) Annual Financial Statements for the year ended 31 March 2023

# Accounting Policies

## 1.2 Property, plant and equipment (continued)

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Gains and losses on disposals are determined by comparing the proceeds with the carrying amount and are recognised in profit or loss in the period.

#### 1.3 Intangible assets

Intangible assets are carried at cost less any accumulated amortisation and accumulated impairment losses.

The amortisation period and the amortisation method for intangible assets are reviewed at each reporting date if there are indicators present that there is a change from the previous estimate.

Amortisation is provided to write down the intangible assets, on a straight-line basis, to their residual values as follows:

Item **Useful life** Indefeasible right of use 20 years

#### 1.4 Financial instruments

#### Initial measurement

Financial instruments are initially measured at the transaction price (including transaction costs except in the initial measurement of financial assets and liabilities that are measured at fair value through profit or loss) unless the arrangement constitutes, in effect, a financing transaction in which case it is measured at the present value of the future payments discounted at a market rate of interest for a similar debt instrument.

#### Financial instruments at amortised cost

Debt instruments, as defined in the standard, are subsequently measured at amortised cost using the effective interest method. Debt instruments which are classified as current assets or current liabilities are measured at the undiscounted amount of the cash expected to be received or paid, unless the arrangement effectively constitutes a financing transaction. These include trade and other receivables, loans and trade and other payables. At the end of each reporting period date, the carrying amounts of assets held in this category are reviewed to determine whether there is any objective evidence of impairment. If so, an impairment loss is recognised.

## Financial instruments at fair value

All financial instruments that do not fall into the categories designated below are measured at the fair value through profit or

# Loans to (from) group companies

These include loans to and from holding companies and fellow subsidiaries and are recognised initially at fair value plus direct transaction costs. These loans are subsequently measured at amortised cost using the effective interest rate method.

Loans to group companies are classified as financial assets measured at amortised cost.

Loans from group companies are classified as financial liabilities measured at amortised cost.

## Other Financial Assets

Investments classified as other financial assets are measured at the fair value through profit or loss.

Loans classified as other financial assets are measured at amortised cost.

Legal Director - AMEA

(Registration number: 2008/006072/07) Annual Financial Statements for the year ended 31 March 2023

# Accounting Policies

## 1.4 Financial instruments (continued)

#### Cash and cash equivalents

Cash and cash equivalents includes cash on hand, demand deposits and other short-term highly liquid investments with original maturities of three months or less. Bank overdrafts are shown in current liabilities on the statement of financial position.

#### Trade and other receivables

Trade receivables are recognised initially at the transaction price. They are subsequently measured at amortised cost using the effective interest rate method, less provision for impairment. A provision for impairment of trade receivables is established when there is objective evidence that the company will not be able to collect all amounts due according to the original terms of the receivables

Most sales are made on the basis of normal credit terms and the receivables do not bear interest. Where credit is extended beyond normal credit terms, receivables are measured at amortised cost using the effective interest rate method. At the end of each reporting period, the carrying amount of the trade and other receivables are reviewed to determine whether there is any objective evidence that the amounts are not recoverable. If so, an impairment loss is recognised immediately in profit or loss.

## Trade and other payables

Trade payables are recognised initially at the transaction price and subsequently measured at the amortised cost using the effective interest rate method.

Trade payables are obligations on the basis of normal credit terms and do not bear interest. Trade payables denominated in a foreign currency are translated into South African Rands using the exchange rate at the reporting period date. Foreign exchange gains and losses are included in other income or operating expenses.

#### 1.5 Tax

#### Current tax assets and liabilities

Current tax for current and prior periods is, to the extent unpaid, recognised as a liability. If the amount already paid in respect of current and prior periods exceeds the amount due for those periods, the excess is recognised as an asset.

Current tax liabilities (assets) for the current and prior periods are measured at the amount expected to be paid to (recovered from) the tax authorities, using the tax rates (and tax laws) that have been enacted or substantively enacted by the reporting

The tax liability reflects the effect of the possible outcomes of a review by the tax authorities.

# Deferred tax assets and liabilities

A deferred tax liability is recognised for all taxable temporary differences.

A deferred tax asset is recognised for all deductible temporary differences and for the carry forward of unused tax losses and

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted by the

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets against current tax liabilities and when the deferred tax assets and liabilities relate to taxes levied by the same taxation authority on the same taxable entity where there is an intention to settle the balances on a net basis.

# Tax expenses

The tax expense for the period comprises of current and deferred tax. Tax is recognised in profit and loss, except for a charge attributable to an item of income or expense recognised in other comprehensive income or as equity, in which case it is recognised directly in other comprehensive income or equity.

Legal Director - AMEA

(Registration number: 2008/006072/07)

Annual Financial Statements for the year ended 31 March 2023

# **Accounting Policies**

## 1.6 Leases

A lease is classified as a finance lease if it transfers substantially all the risks and rewards incidental to ownership to the lessee. All other leases are operating leases.

#### Finance leases - lessee

Finance leases are recognised as assets and liabilities in the statement of financial position at amounts equal to the fair value of the leased property or, if lower, the present value of the minimum lease payments. The corresponding liability to the lessor is included in the statement of financial position as a finance lease obligation.

The lease payments are apportioned between the finance charge and reduction of the outstanding liability. The finance charge is allocated to each period during the lease term so as to produce a constant periodic rate on the remaining balance of the liability.

#### Operating leases - lessee

Operating lease payments are recognised as an expense on a straight-line basis over the lease term. The difference between the amounts recognised as an expense and the contractual payments are recognised as an operating lease liability. The liability is not discounted.

#### 1.7 Inventories

Inventories are measured at the lower of cost and net realisable value which is the selling price less costs to complete and sell, on the first-in, first-out (FIFO) basis. The cost of inventories comprise all costs of purchase and other costs incurred in bringing the inventories to their present location and condition. At each reporting date, inventories are assessed for impairment. If inventory is impaired, the carrying amount is reduced to the lower of cost and net realisable value; the impairment loss is recognised immediately in profit and loss.

#### 1.8 Impairment of assets

The company assesses at each reporting date whether there is any indication that an asset may be impaired.

If there is any such indication, that an asset may be impaired, the recoverable amount of any affected asset (or group of related assets) is estimated and compared with its carrying amount. If the estimated recoverable amount is lower, the carrying amount is reduced to its estimated recoverable amount, and an impairment loss is recognised immediately in profit or loss.

If an impairment loss subsequently reverses, the carrying amount of the asset (or group of related assets) is increased to the revised estimate of its recoverable amount, but not in excess of the amount that would have been determined had no impairment loss been recognised for the asset (or group of assets) in prior years. A reversal of impairment is recognised immediately in profit or loss.

## 1.9 Share capital and equity

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities.

Ordinary shares are classified as equity.

## 1.10 Share based payments

Goods or services received or acquired in a share-based payment transaction are recognised when the goods are received or as the services are rendered. A corresponding increase in equity is recognised if the goods or services were received in an equity-settled share-based payment transaction or a liability if the goods or services were acquired in a cash-settled share-based payment transaction.

When the goods or services received or acquired in a share-based payment transaction do not qualify for recognition as assets, they are recognised as expenses.

For equity-settled share-based payment transactions, the goods or services received, and the corresponding increase in equity, are measured directly, at the fair value of the goods or services received, unless that fair value cannot be estimated reliably, in which case they are measured at the fair value of the equity instrument granted.

ВТ

Legal Director - AMEA

(Registration number: 2008/006072/07) Annual Financial Statements for the year ended 31 March 2023

# Accounting Policies

## 1.10 Share based payments (continued)

If the share based payments granted do not vest until the counterparty completes a specified period of service, the company accounts for those services as they are rendered by the counterparty during the vesting period, (or on a straight line basis over the vesting period).

If the share based payments vest immediately the services received are recognised in full.

For share-based payment transactions in which the terms of the arrangement provide either the entity or the counterparty with the choice of whether the entity settles the transaction in cash (or other assets) or by issuing equity instruments, the components of that transaction are recorded, as a cash-settled share-based payment transaction if, and to the extent that, a liability to settle in cash or other assets has been incurred, or as an equity-settled share-based payment transaction if, and to the extent that, no such liability has been incurred.

The company does not operate any share scheme itself but employees participate in share schemes of the BT Group. The company measures its share-based payment expense on the basis of a reasonable allocation of the expense recognised for the group based on the value allocated to employees of the company.

## 1.11 Employee benefits

#### Short-term employee benefits

The cost of short-term employee benefits, (those payable within 12 months after the service is rendered, such as leave pay and sick leave, bonuses, and non-monetary benefits such as medical care), are recognised in the period in which the service is rendered and are not discounted.

The expected cost of compensated absences is recognised as an expense as the employee renders services that increases their entitlement or, in the case of non-accumulating absences, when the absence occurs

The expected cost of profit sharing and bonus payments is recognised as an expense where there is a legal or constructive obligation to make such payments as a result of a past performance.

## **Defined contribution plans**

A defined contribution plan is a plan under which the company pays fixed contributions to a separate entity. Payments to defined contribution retirement benefit plans are charged as an expense as they fall due. The company has no further obligations once the contributions have been paid.

## Share-based compensation

The group operates an equity-settled, share-based compensation plan, under which the entity receives services from employees as consideration for equity instruments (options) of the parent entity. The fair value of the employee services received is measured by reference to the estimated fair value at the grant date of equity instruments granted and is recognised as an expense over the vesting period. The estimated fair value of the option granted is calculated using the Monte Carlo pricing model. The total amount of expenses is recognised over the vesting period, which is the period over which all the specified vesting conditions are to be satisfied.

The company does not operate any share scheme itself but employees participate in share schemes of the BT Group. The company measures its share-based payment expense on the basis of a reasonable allocation of the expense recognised for the group based on the value allocated to employees of the company.

# 1.12 Provisions and contingencies

Provisions are recognised when the company has an obligation at the reporting date as a result of a past event; it is probable that the company will be required to transfer economic benefits in settlement; and the amount of the obligation can be estimated reliably

Provisions are measured at the present value of the amount expected to be required to settle the obligation using a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the obligation. The increase in the provision due to the passage of time is recognised as interest expense.

Contingent assets and contingent liabilities are not recognised.

# **Accounting Policies**

## 1.13 Revenue

Revenue is measured at the fair value of the consideration received or receivable and represents the amounts receivable for goods and services provided in the normal course of business, net of trade discounts and value added tax.

#### Equipment sales

Revenue from the sale of goods is recognised when all the following conditions have been satisfied:

- the company has transferred to the buyer the significant risks and rewards of ownership of the goods;
- the company retains neither continuing managerial involvement to the degree usually associated with ownership nor
  effective control over the goods sold;
- · the amount of revenue can be measured reliably;
- it is probable that the economic benefits associated with the transaction will flow to the company; and
- the costs incurred or to be incurred in respect of the transaction can be measured reliably.

#### Services

When the outcome of a transaction involving the rendering of services can be estimated reliably, revenue associated with the transaction is recognised by reference to the stage of completion of the transaction at the end of the reporting period. The outcome of a transaction can be estimated reliably when all the following conditions are satisfied:

- the amount of revenue can be measured reliably;
- it is probable that the economic benefits associated with the transaction will flow to the company;
- the stage of completion of the transaction at the end of the reporting period can be measured reliably; and
- · the costs incurred for the transaction and the costs to complete the transaction can be measured reliably.

When the outcome of the transaction involving the rendering of services cannot be estimated reliably, revenue shall be recognised only to the extent of the expenses recognised that are recoverable.

## Long-term contractual arrangements

Revenue from long term contractual arrangements is recognised based on the stage of completion method. The stage of completion is estimated using an appropriate measure according to the nature of the contract. If the performance pattern is other than straight line, revenue is recognised as services are provided, usually on an output or consumption basis. For fixed price contracts, including contracts to design and build software solutions, revenue is recognised by reference to the stage of completion, as determined by the proportion of costs incurred relative to the estimated total contract costs, or other measure of completion such as the achievement of contract milestones and customer acceptance. In the case of time and materials contracts, revenue is recognised as the service is rendered.

Costs related to delivering services under long-term contractual arrangements are expensed as incurred. Elements of costs incurred in the initial set up, transition or transformation phase of the contract are also expensed.

## Interest received

Interest is recognised, in profit or loss, using the effective interest rate method.

# 1.14 Borrowing costs

Borrowing costs are recognised as an expense in the period in which they are incurred.

Annual Financial Statements for the year ended 31 March 2023

# **Accounting Policies**

## 1.15 Translation of foreign currencies

#### Foreign currency transactions

A foreign currency transaction is recorded, on initial recognition in the functional currency of the company, by applying to the foreign currency amount the spot exchange rate between the functional currency and the foreign currency at the date of the transaction.

At the end of each reporting period:

- · foreign currency monetary items are translated using the closing rate;
- non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rate at the date of the transaction; and
- non-monetary items that are measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined.

Exchange differences arising on the settlement of monetary items or on translating monetary items at rates different from those at which they were translated on initial recognition during the period or in previous annual financial statements are recognised in profit or loss in the period in which they arise.

When a gain or loss on a non-monetary item is recognised in other comprehensive income or directly in equity, any exchange component of that gain or loss is recognised in other comprehensive income or directly in equity. When a gain or loss on a non-monetary item is recognised in profit or loss, any exchange component of that gain or loss is recognised in profit or loss.

## 1.16 Dividend distribution

Dividend distribution to the company's shareholders is recognised as a liability in the financial statements in the period in which the dividends are approved by the company's directors.

	Opening balance	Amortisation	Total
Indefeasible right of use	101,546,148	(9,162,108)	92,384,040
	·		

## Reconciliation of intangible assets - 2022

	Opening balance	Amortisation	Total
Indefeasible right of use	110,708,255	(9,162,107)	101,546,148

## Indefeasible right of use

BT committed to invest in a terrestrial cable fibre link between Johannesburg and Cape Town, known in BT as "Universe". BT has acquired six fibre pairs, which equates to approximately nine Terabytes or 9 000 Gigabytes of capacity. BT is not a shareholder / member of the consortium (Fiberco Communications) building the link but is classified as a key anchor tenant.

On the basis that there are no additional right of use payments due and that BT has acquired the exclusive use of an intangible asset - i.e. six discrete fibre pairs over a 20 year term, a separate lease assessment was not considered necessary. Operational sign off was the trigger date for the commencement of amortisation, as at that point it was "available for use, and in the location and condition necessary for it to be capable of operating in the manner intended by management.

The remaining useful life of the asset is 9 years and 9 months.

## 12. Provisions

This is the dilapidation provision relating to three office leases whereby the company, as the lessee, must incur costs to make good any damages which may occur to the property during the lease term or to restore the property to a specified condition.

#### Reconciliation

Carrying amount at the beginning of the year Additions during the year	3,756,825	5,646,728 190.493
Charged against provision during the year	-	(2,080,396)
Carrying amount at the end of the year	3,756,825	3,756,825

#### 13. Share based payments

The company does not operate any share scheme itself but employees participate in share schemes of the BT Group. The company measures its share-based payment expense on the basis of a reasonable allocation of the expense recognised for the group based on the value allocated to employees of the company.

The total share based payment charge recognised in the statement of comprehensive income was R301,656 (2022: R78,188). BT Group plc (the ultimate holding company), has an employee share investment plan and savings-related share option plans for its employees and those of participating subsidiaries (which BT Communications Services SA is part of). It also has several share plans for executives. All share based payments are denominated in Great British Pounds and relates to the shares of BT Group plc which is incorporated in the United Kingdom.

All share based payment plans are equity settled and details of these plans and an analysis of the total charge by type of award is set out below:

International Saveshare and Deferred Bonus Plan Executive Share plan plus Retention and Restricted Share Plans	110,407 191,249	(14,993) 93,181
	301,656	78,188

## What share incentive arrangements do we have?

Our plans include savings-related share option plans for employees and those of participating subsidiaries, further share option plans for selected employees and a stock purchase plan for employees in the US. Details of these plans are set out below.

Annual Financial Statements for the year ended 31 March 2023

# **Notes to the Annual Financial Statements**

## 13. Share based payments (continued)

### **Employee Sharesave Plan**

Under an HMRC-approved savings-related share option plan, employees save on a monthly basis, over a three or five-year period, towards the purchase of shares at a fixed price determined when the option is granted. This price is set at a 20% discount to the market price for five-year plans and 10% for three-year plans. The options must be exercised within six months of maturity of the savings contract, otherwise they lapse. Similar plans operate for our overseas employees.

#### **Incentive Share Plan**

Participants are entitled to ISP shares in full at the end of a three-year period only if the company has met the relevant predetermined corporate performance measures and if the participants are still employed by the group. No ISP awards were granted during the financial year under review. For ISP awards granted in previous years 40% of each award is linked to a total shareholder return (TSR) target for a comparator group of companies from the beginning of the relevant performance period; 40% is linked to a three-year cumulative normalised free cash flow measure; and 20% to growth in underlying revenue.

## Deferred Bonus Plan (DBP)

Awards are granted annually to selected employees. Shares in the company are transferred to participants at the end of three years if they continue to be employed by the group throughout that period.

## Retention and Restricted Share Plans (RSP)

Awards are granted to selected employees. Shares in the company are transferred to participants at the end of a specified retention or restricted period if they continue to be employed by the group throughout that period.

Under the terms of the ISP, DBP and RSP, dividends or dividend equivalents earned on shares during the conditional periods are reinvested in company shares for the potential benefit of the participants.

Deferred Bonus Plans (DBP)	Number	Weighted average exercise price	Total value

- Expected volatility	28.33% - 28.39%	n/a
14. Common control surplus reserve		
Common control surplus reserve	7,636,575	7,636,575

On 6 March 2008, BT Communications Services South Africa Proprietary Limited was incorporated. Following the incorporation of BT Communications Services South Africa Proprietary Limited, BT Limited (South African Branch) sold all of its assets and liabilities to BT Communications Services South Africa Proprietary Limited.

BT Communications Services South Africa Proprietary Limited assets and liabilities are ultimately controlled by the same parties both before and after the transaction. There is currently no guidance in IFRS for SME's on the accounting treatment for combinations among entities under common control. In developing a policy for common control transactions, BT Communications Services South Africa Proprietary Limited considered the guidance issued by other standard setting bodies which use a similar conceptual framework to develop accounting standards.

BT Communications Services South Africa Proprietary Limited has elected to use the predecessor accounting method, which is based on equivalent US GAAP and UK GAAP guidance for common control transactions. Predecessor accounting does not require to restate assets and liabilities to their fair values. The acquirer, i.e. BT Communications Services South Africa Proprietary Limited incorporated the predecessor's carrying values. No goodwill arises in applying the predecessor accounting method.

In accordance with predecessor method, any difference between the consideration given (shares issued) and the aggregate book value of the assets and liabilities (as at the date of the transaction) is recognised in a separate reserve within equity called common control surplus reserve.

Book value of net identifiable assets and liabilities acquired under common control Purchase consideration	97,636,575 (90,000,000)	97,636,575 (90,000,000)
Common control surplus reserve	7,636,575	7,636,575

Legal Director - AMEA

<sup>\*</sup> Prior year figures have been restated (where necessary) to ensure correct disclosure.

<sup>\*\*</sup> The Non-SA employed Director was not paid for any services by the company. The amounts reflected above were paid in AED by another company in the group in a different jurisdiction who is the employer. These amounts were converted to ZAR using monthly average exchange rates.

(Registration number: 2008/006072/07)

Annual Financial Statements for the year ended 31 March 2023

# **Notes to the Annual Financial Statements**

## 27. Going concern

The directors believe that the company has adequate financial resources to continue in operation for the foreseeable future and accordingly the financial statements have been prepared on a going concern basis. The directors have satisfied themselves that the company is in a sound financial position and that it has access to sufficient borrowing facilities to meet its foreseeable cash requirements. The directors are not aware of any new material changes that may adversely impact the company. The directors are also not aware of any material non-compliance with statutory or regulatory requirements or of any pending changes to legislation which may affect the company.

## 28. Events after the reporting period

Apart from the matter referred to in note 16 of the Directors' report, the directors are not aware of any material event which occurred after the reporting date and up to the date of this report.
